Email: mariannamehes@gmail.com,

Office hours: See on the door of Room No. 312.

Textbook: **BASICS OF MEDICAL TERMINOLOGY (LATIN AND GREEK ORIGINS)**, by László Répás, 2016.

Websites: ilekt.med.unideb.hu (for downloading Minimum Vocabulary, syllabus, etc.)
www.medi-lingua.hu (for interactive exercises, study tools) Ask your teacher for username and password.

Course Objectives:

By the end of the term you should:

- know the vocabulary pertaining to 1) the anatomical positions, 2) planes and directions; 3) the body parts; 4) the bones and the skeleton; 5) the body regions; 6) the bone connections; 7) the muscular system;
- understand basic grammatical terms like Singular, Plural, Nominative, Genitive, etc.;
- be able to use Latin nouns in both Singular Nominative and Genitive as well as Plural forms
- be able to use Latin adjectives in concord with the nouns in adjective phrases
- be able to understand prefixes related to numerals and quantities
- be able to form adjectives from Latin nouns;
- be able to understand and actively use several Latin and Greek prefixes and suffixes relating to medical terminology.

Attendance

- Language class attendance is compulsory. The maximum percentage of allowable absences is 10 % which is a total of 2 out of the 15 weekly classes.
- Being late is counted as an absence. If the number of absences is more than two, the final signature is refused and the student must repeat the course.
- Students are required to bring the textbook or other study material given out for the course with them to each language class. Active participation is evaluated by the teacher in every class. If students' behaviour or conduct does not meet the requirements of active participation, the teacher may evaluate their participation with a "minus" (-). If a student has 5 minuses, the signature may be refused due to the lack of active participation in classes.

Testing, evaluation

- In each Latin language course, students must sit for 2 written language tests.
- A further minimum requirement is the knowledge of 300 words per semester announced on the first week. There is a (written or oral) word quiz in the first 5-10 minutes of the class, every week. If a student has any failed or missed word quizzes he/she has to take a vocabulary exam that includes all 300 words. Based on the final score the grades are given according to the following table:

<i>Final score</i>	<i>Grade</i>
0 - 59	fail (1)
60-69	pass (2)
70-79	satisfactory (3)
80-89	good (4)
90-100	excellent (5)

- If the final score is below 60, the student once can take a remedial exam covering the whole semester's material.

Consultation classes

- In each language course once a week students may attend a consultation class with one of the teachers of that subject in which they can ask their questions and ask for further explanations of the material covered in that week. These classes are optional for the students.

The Schedule of Classes

Week	Topics covered
